(WO 98/40972)) are relevant to this application, neither of these references teaches a cable modem device retrieving a communication parameter from memory, comparing this value with a predetermined

threshold to identify a potential link impairment, and then periodically sending a message to the headend device indicating that a system adjustment is necessary in response to the comparison.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
